INTERSTELLAR NEWS

17 **Forthcoming books**

18 **Estimating The Number of Intelligent Extraterrestrial Civilizations**

18 **The Fatal Absence of Extraterrestrial Intelligence and its Consequence for Humanity**

19 **On Bayesian inference considerations**

19 **The Eschatian Hypothesis**

20 **A computational framework for interstellar tracking**

21 **Exploring Fermi's Paradox**

22 **Strategies for Observing Technosignatures**

23 **Photon Dynamics and Collision Risks in Relativistic Spaceflight**

23 **Causal Gravity Assists**

24 **From the Search for Extraterrestrial Life to Interstellar Civilizations**

25 **The Temporal Observability Filter Hypothesis**

26 **DUST-Based Propulsion Systems**

27 **Stellar engines and Dyson bubbles can be stable**

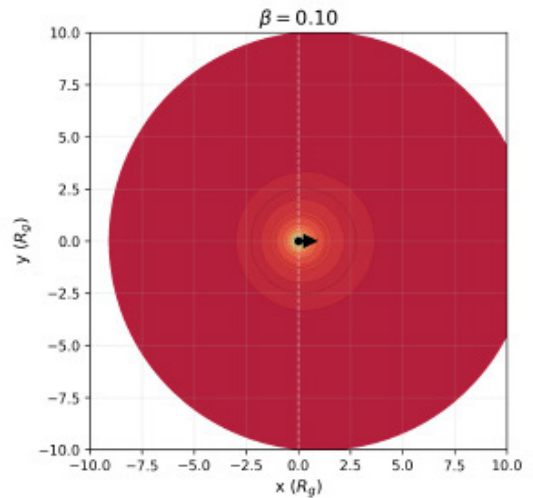

27 **Technological Singularity despite Decentralized Consumption**

28 **A Photonic Sail of Utmost Simplicity: The Ribbon**

28 **A framework for the Dark Forest Hypothesis**

29 **Conway's Game of Life**
